Descriptions:

The orders have just been handed down from the President: seek out and rescue the soldiers who are Missing In Action!

With the thunder of combat exploding all around, the player begins his mission armed solely with a knife. Using his training in hand-to-hand combat, he is able to take more powerful weapons from the enemy soldiers. These weapons include:

- **Hand Grenades**
- **Machine Guns**
- **Flamethrower**
- **Rocket Launcher**

The player must find the enemy prison camp. He begins fighting his way through the jungle, remaining aware not only of enemy soldiers, but land mines ready to explode. After clearing the control tower at the end of the jungle, the player moves to a mountain region. In this area, he must battle enemies on hazardous bridges and in crumbling ruins. When he has annihilated all the enemies here, he finds himself at one of the enemy's bases. He fights the soldiers as he climbs around tanks, helicopters, and airplanes with propellers treacherously spinning at top speed. Once the player is safely through the enemy base, he moves along to a railroad and freight area. He must keep on his toes because enemies are hiding all over. After polishing off all the adversaries here, the player reaches the secret enemy prison camp. He weaves his way through the underground caverns until he makes it to the prisons. A fierce battle with the guards must be won before the captives are freed. However, there is no time to relax after the prisoners are set free. The player must lead them back out through the jungle, fighting even more relentless opponents until he can deliver the captives to the safety of the escape helicopter. Upon their safe return, the brave heroes are congratulated, but others are still missing . . .
